## ABOUT THE CONFERENCE

In this conference, we are taking the opportunity to offer an overview of most recent advances in different cross sections of energy sector including energy technologies, their applications, and possible solutions to the barriers in the growth of sustainable energy. The conference will also discuss policy matters related to energy. Renowned experts, from all over the world, including from India, will discuss recent innovations made in areas related to energy. The advisory committees have therefore chosen the title of the conference as *International Conference on Energy Options for Tomorrow: Technology to Sustainability*.

This conference will provide ample opportunities for interactions among academia, industry, policy makers and young researchers. The conference will have plenary and invited speakers, oral presentation by selected young researchers, poster sessions and industry presentations.

## THE HOST

The Neotia University (TNU), established in February 2015, is hosting this conference.

TNU offers a fresh approach to Indian higher education by bringing in flexibility and providing experiential education and industry-academia interaction from day zero. TNU is the first university in India to offer a B.Tech in Energy Engineering, in collaboration with Adani Power Ltd., Ahmedabad, India. TNU, even though young, believes in providing up to date knowledge through organising seminars, workshops and conferences in association with industry partners. The university encourages its faculty members and students to carry out quality research, interact with experts and hopes to achieve excellence in human resource development. This conference is an effort in that direction.

## CALL FOR PAPERS (ORAL / POSTER)

Original research work related to all aspects of energy and themes mentioned below to be submitted by email to [tnu.energy@tnu.in](mailto:tnu.energy@tnu.in). The abstract should be limited to 250 words, in Times New Roman font, size 12 in MS Word format with the following information.

(a) The title of the paper (b) Name/s of author/s (c) Affiliation as you would like to appear in programme (d) Email address (e) Body of the abstract and (f) Keywords.

Notifications of acceptance of abstracts will be conveyed to the corresponding author. Instructions for the full-length paper will be intimated after the acceptance of the abstracts. To include the abstract/full paper in the conference proceeding it is compulsory for at least one author to get registered for the conference. Selected original research papers of registered participants are likely to be published in the peer-reviewed journals as a special issue.

**THEMES:** The conference will mainly focus on, but not limited to, the following themes related to energy:

- **Materials & Conversion**
- **Storage**
